Made of high quality soft plush material

3 heating power levels

Controller with backlit LCD display

Practical size

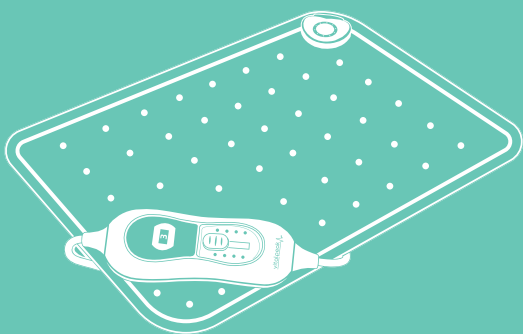

Removable controller

Safety fuse against overheating of the device

AC operation

Heated pad HB 30

is an ideal helper for quick warm-up on cold days. This pad will give you a feeling of warmth on rainy and cold days, when it will give you an instant feeling of warmth. You can choose from three levels of heating and of course there is an automatic shutoff after 90 minutes of operation, which prevents the pad from overheating. The advantage of the blanket is its small size, which is well suited for warming the back or hands after returning from a stay outside.

VITALPEAK HB 30

VITALPEAK are modern and reliable products for your good quality and more comfortable life. The ease of use, quality and high functionality of the products ensure comfort that makes life easier.

TYPE	Name	heating pad
	Type	blanket
