Safety fuse against
overheating

AC operation

Heated boot HP 40

will help you warm your cold feet on cold and damp days. It is made of a pleasant soft plush material with an inner washable lining. The universal size of the heated shoe is suitable for any size of foot. The heated shoe warms up evenly and quickly, and of course there is an automatic shut-off after 90 minutes of operation, which protects the device from overheating. There are three levels of heating to choose from.

VITALPEAK HP 40

VITALPEAK are modern and reliable products for your good quality and more comfortable life. The ease of use, quality and high functionality of the products ensure comfort that makes life easier.
